

Wardroom Errat v2 Sept 2024

Using the points chart: The blue coloumn is the rulebook points and included for refence.
When building a list with SHIPS, if using a ship's Wardroom Errata entry use that coloumn for that ship, otherwise use the middle coloumn marked SHIPS ppm for the Rulebook stats
All costs have already been calculated to include all previous refits.
Flights have to be purchased even if taken on a carrier, flights costs are found at the end of this document
Where flights have a cost listed eg 8/4, the first is for land based flights and the lower is flights taken on a carrier.
Carriers have an addition cost listed in brackets, eg +(25), this is the minimum cost of all flights taken on that carrier - pay this unless the cost of the flights taken with that carrier is more.
Example: <b>HMS Eagle is listed as 105 +(25)</b> so you pay 105 point for the ship. If you take 5 <b>Skua II Dive Bombers</b> with a carrier cost of <b>4 points each</b> that is only 20 point so you pay the <b>+(25) for a total of 130 points</b> . If you was to take <b>5 Swordfish Torpedo Bombers at 6 points</b> each you would pay the <b>30 points</b> insted for a <b>total of 135</b> . IF you dont take any flights you still pay the bracketed cost.
